ORCID: <https://orcid.org/my-orcid?orcid=0000-0003-4206-3686>

As an experimental s-sider, my research focuses on experimental linguistics (acquisition and sentence processing), grounded in theories of syntax, semantics, pragmatics, and their interfaces (s-side). Ontologically, I appreciate linguistic limits (i.e. how much specific subsystems can vary across languages) and predictors (i.e. what features may co-occur cross-linguistically). Epistemologically, I believe that linguistics is ultimately a part of cognitive science. Hence, I investigate how the language-specific biological faculty operates during language comprehension and production, and how it integrates into the broader context of the mind and brain (i.e. general cognitive faculty). Methodologically, I employ various behavioral and neural methods in experimental science to explore the interaction between linguistic theory (both form and meaning) and cognitive architecture.

Research Interests

- Language Acquisition

acquisition of syntax-semantics-pragmatics, child and adult acquisition

- Psycho(-neuro)linguistics

sentence processing of syntax-semantics-pragmatics, neurotypical/neurodivergent processing

- Linguistic Philosophy

history of linguistic thoughts, philosophy of linguistics research

Publication

published

Zhong, Y. H. (2024). L2 cognitive construal and morphosyntactic acquisition of pseudo-passive constructions. *Linguistics Vanguard* (SSCI Q2), 10(1), 147-161.
<https://doi.org/10.1515/lingvan-2023-0104>

published

Zhong, Y. H. (2024). From generative hierarchicality to parallel-dialogic syntax:

major revision	Zhong, Y. H. (2024). Semantic-pragmatic constraints on Chinese genitive constructions. <i>Studia Linguistica</i> (SSCI Q4)
1st round peer review	Zhong, Y. H. (2025). Aspect in telicity acquisition: evidence from Mandarin children. <i>Journal Of Semantics</i> (SSCI Q2)
1st round peer review (ongoing)	Zhong, Y. H. (2025). Can the Galilean ideal of formal linguistics be sustained? <i>Erkenntnis</i> (AHCI)
1st round peer review (ongoing)	Zhong, Y. H. & Li, H. H.* (2025). L1 & L2 processing of counterfactual conditionals: evidence from fMRI. <i>Journal Of Neuroscience Research</i> (SCIE Q2), registered report stage 1
1st round peer review (ongoing)	Zhong, Y. H. (2026). Titularity & Disciplinary Identity. <i>Synthese</i> (AHCI)

Employment

2025.06-now	School of Psychology, Shenzhen University, China Research assistant (in the field of neurolinguistics with an fMRI focus)
-------------	--

Education

- 2022.08-2023.07 M.A. (Applied Linguistics), The Chinese University of Hong Kong, Hong Kong, China
 Full-time student representative nominated by the department
Self-directed thesis: Asperger Writers' Attention & Awareness In Written Production (Currently published by *Language Awareness*, SSCI Q1)
 GPA: 3.5/4
- 2019.03-2021.12 B.A. (Linguistics), Adelaide University, Adelaide, South Australia, Australia
 GPA: 6.75/7
- 2021.06-2021.10 Advanced Diploma of Translating, Sydney Institute of Interpreting & Translating, Australia
- 2021.01-2021.06 Diploma of Interpreting, Australian Ideal College, Australia

Summer School

- 2024.07-2024.08 *Core Courses In Linguistics*, Beijing Institute Of Technology, Beijing, China
 Organizer: The Linguistics Institute of China
- 600-hour intensive training in phonetics, phonology, syntax, and semantics
 - daily lectures, weekly assignments and exams
 - high familiarity of generative linguistic analysis across core modules
- 2023.07 *Time & Cognition*, Peking University, Beijing, China
- self-directed study in the field of semantic & syntactic processing with neurolinguistic methodology
 - engagement in reading discussion groups
 - formulation of a new neurolinguistic research proposal (title: *L1 Processing Of Counterfactual Conditionals With Modality: Evidence From ERPs*)

Invited Conference Presentations

- 2023.07.15 2023 Hong Kong Association for Applied Linguistics (HAAL) Conference, Hang Seng University of Hong Kong, Shatin, Hong Kong, China
- Paper Presentation: *L1 Lexical-semantic Processing Of Chinese Neologisms: Evidence From Self-paced Reading Task*

- 2023.08.31-09.02 2023 Architectures & Mechanisms For Language Processing-Asia Conference, The Chinese University of Hong Kong, Hong Kong, China
- Poster Presentation: *L1 Lexical-semantic Processing Of Chinese Neologisms: Evidence From Self-paced Reading Task*
- 2023.11.04-11.05 2023 Applied Linguistic Research (ALR) Symposium, Prince Sultan University, Saudi Arabia
- Poster presentation: *L2 Cognitive Construal & Morpho-syntactic Acquisition Of Pseudo-passive Construction*
 - Paper Presentation: *L1 Lexical-semantic Processing Of Chinese Neologisms: Evidence From Self-paced Reading Task*
- 2023.11.19-11.21 2023 Applied Linguistics Association of Australia (ALAA) Conference, The University of Wollongong, Wollongong, New South Wales, Australia
- Paper Presentation: *L2 Cognitive Construal & Morpho-syntactic Acquisition Of Pseudo-passive Construction*
 - Paper Presentation: *L1 Lexical-semantic Processing Of Chinese Neologisms: Evidence From Self-paced Reading Task*
- 2023.11.29-12.01 2023 Australian Linguistic Society (ALS) Conference, University of Sydney, Sydney, New South Wales, Australia
- Paper Presentation: *L2 Cognitive Construal & Morpho-syntactic Acquisition Of Pseudo-passive Construction*
 - Paper Presentation: *L1 Lexical-semantic Processing Of Chinese Neologisms: Evidence From Self-paced Reading Task*
 - Paper Presentation: *Asperger Writers' Attention & Awareness In Written Production*
- 2024.06.21-06.22 2024 International Conference On Linguistics & Language Studies, Hong Kong Metropolitan University, Hong Kong, China
- Paper Presentation: *From Generative Hierarchicality To Parallel-dialogic Syntax: Modeling Typological Protolanguage*
- 2026.06.22 2026 Oxford Postgraduate Conference In Linguistics, University of Oxford, Oxford, Britain
- Poster presentation: *Aspect In Telicity Acquisition: Evidence From Mandarin Children*

Professional Service

Journal reviewer

Applied Linguistics (SSCI Q1)

Forum For Linguistic Studies

Media Engagement

2024

- Content creation about popular science articles on social media

Does linguistics truly research “language”? Syntactic theory→language acquisition→AI

Why is Chinese the most difficult natural language to be acquired? Why is French so accurate?

Linguistics VS psychology: how they study psycholinguistics in their own way

Technical Skills

Statistics

SPSS, R Studio

Laboratory

Praat

Translation

English-Chinese bidirectional translation

Representative work (English→Chinese in about 90000 characters):

Witting, A. (1989). *I For Isobel*. Penguin Books.

Languages

Native

Mandarin Chinese

Advanced

English

Basic

French

Courses Taken (Selected)

- Syntax
 - Semantics
 - Phonology
 - Phonetics
- Theoretical Linguistics
 - Research Methods In Applied Linguistics
 - Second Language Acquisition
- Cognitive Linguistics
 - Interdisciplinary Approaches To Multilingualism

Jimmy

- Psycholinguistics
- Time & Cognition
- Phonological Acquisition
- Linguistics & Translation
- Lexicology
- Language Variation & Change
- Sociolinguistics
- Language & Society
